Decoding Dyslexia Wisconsin is a network of parent- led grassroots movements located in 50 states and 4 Canadian Provinces. We are concerned with the limited access to educational interventions for dyslexia.

We aim to raise dyslexia awareness, empower families to support their children, provide education seminars, share resources, and inform policy-makers on best practices to identify, remediate, and support struggling readers and students with dyslexia.

We support families of struggling readers, share resources, and strategies which are helpful. Every child must to learn to read so they can reach their full potential!

Please join our diverse group! http://decodingdyslexiawi.org/
