

**Decoding Dyslexia** is a network of parent-led grassroots movements in the United States and Canada concerned with the limited access to educational interventions for dyslexia within the public education system. We aim to raise dyslexia awareness, empower families to support their children and inform policy-makers on best practices to identify, remediate and support students with dyslexia.

Dear Partner in Literacy,

I am a volunteer with Decoding Dyslexia Wisconsin which is one of fifty chapters nationwide, seven International, and counting! Everyone involved with the organization has the common thread of having a loved one that has dyslexia. We bring teachers and families together in this grassroots organization to help advocate and educate the public about Dyslexia within the State and National legislature. Did you know that it is estimated that Dyslexia affects 1 in 5 people? Many are not identified.

October has been designated *Dyslexia Awareness month* in October 2015 by The 114<sup>th</sup> United States Congress <https://www.congress.gov/bill/114th-congress/senate-resolution/275/text> . We are hoping you will help us raise awareness by setting up a display. Enclosed is a list of books which have been good resources for our family and appropriate for parents and children. Please be sure to take a photo after you have your display set up and send it to [decodingdyslexiawi@gmail.com](mailto:decodingdyslexiawi@gmail.com) so we can showcase and share your display on social media! Thank you kindly in advance for your assistance!

Sincerely,

Decoding Dyslexia Wisconsin
